

EAT YOUR HOUSE OUT

YOUR ARE LOOKING AT A COMBINATION OF A BIRD-HOUSE THAT COULD HEUSED BY FEEDING BIRDS AND A BIRDHOUSE THATS COULD BE USED AS A BIRDS NEST.

IN THE BEGINNING OF THE WINTER YOU CAN PLACE THIS VERY ELEGANCE BIRD-HOUSE IN YOUR GARDEN. SOON THE BIRDS WILL BE

EATING THE BIRDSEED FILLING THAT IS EMBEDDED IN THE CONCRETE.

AFTER EATING A WHILE THE BIRDS CREATE A HOLE IN THE CONCRETE BIRD-HOUSE.

NOW THE FORM OF A BIRD'S NEST IS CREATED IN THE BIRDHOUSE.

WHEN THE WINTER IS COMING TO AN END, A BIRD CAN MAKE A BIRD NEST INSIDE THE BIRDHOUSE.

WHEN THE BIRD FINISHED THE NESTING AND THE YOUNG BIRDS ARE FLOWN OUT, YOU CAN REMOVE THE BIRDS NEST AND RE-FILL THE BIRD NEST WITH A BIRDSEED FILLING.

STEP 1. EATING IN WINTER

STEP 2. EATEN EMPTY

STEP 3. MAKING A NEST

STEP 4. USING THE HOUSE
