

LEARNING FROM NATURE

SIMPLICITY AND REPOSE ARE THE QUALITIES THAT MEASURE THE TRUE VALUE OF ANY WORK OF ART- Frank Lloyd Wright.

We believe that allowing concrete to express its monolithic character can evoke a positive emotional response- appealing to the senses whilst providing practical applications to architectural design.

Bringing an organic quality to concrete, taking inspiration from vascular and respiratory systems, the applications can become as diverse as those in nature, liquids, gasses and even light can be dispersed.

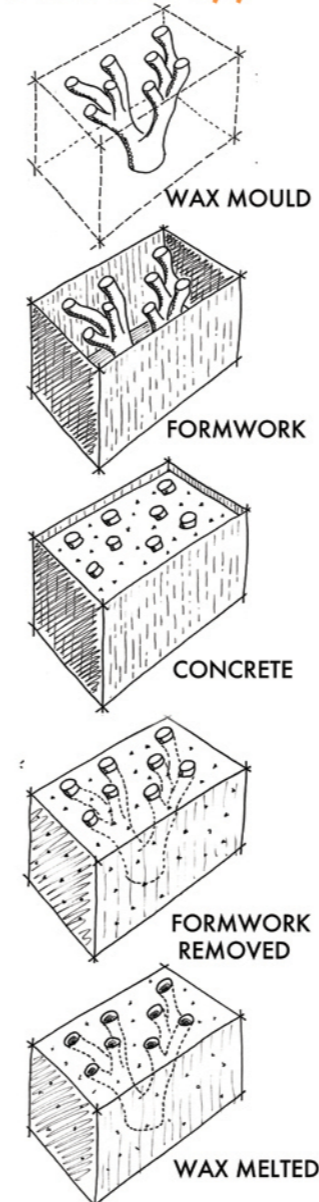

WHY?

EFFICIENT- 1 INPUT // MULTIPLE OUTPUTS
 VERSATILE- DISPERSAL OF LIGHT//WATER//AIR
 CONCRETE REMAINS A UNIFIED ELEMENT WITH MULTIPLE USES

LOST WAX PROCESS//

EFFICIENT APPLICATION//

OUTDOORS//INDOORS//AC DIFFUSION//SERVICE ROUTING//LIGHT INSTALLATIONS
